## INTRODUCTION

The ASP and CSP Exam Preparation Training is led by experienced safety professionals at Aspire Training and Management Consultancy who are well-versed in the exam content and format. The training covers all the key domains and topics outlined in the BCSP exam blueprints, including risk assessment, hazard control, safety management systems, emergency planning, environmental management, and more. Participants will gain in-depth knowledge of safety principles, regulations, and industry standards, along with practical tools and techniques for addressing real-world safety challenges.

# Learning Objectives

The objective of aspire through this course is to train/prepare the participants to successfully clear the ASP/CSP certification exams conducted by the Board of Certified Safety Professionals (BCSP).

Overall, the learning objectives for an ASP/CSP exam preparation course should focus on developing a thorough understanding of safety principles, regulations, and practices, as well as the knowledge and skills needed to effectively manage safety in the workplace.

**Professional and Ethical Responsibility:** Students should understand the importance of professional and ethical behaviour in the safety profession. They should be able to identify ethical dilemmas, apply ethical principles to real-world situations, and demonstrate professional behaviour in the workplace also comes under the learning objective.

# Who Should Attend?

This course is meant for All Occupational Safety and Health Practitioners, Advisers and Managers, Instrument Engineers, Process Engineers and Process Safety Engineers as well as Maintenance Engineers who are involved in any of the lifecycle phases for safety instrumented systems from hazard and risk assessment, and shut down system/fire and gas systems design to testing and maintenance.

## Eligibility Criteria

<b>Academic and/or Training</b>	For Both ASP/CSP, all individuals applying for the certification must have at least 4 years of bachelor's degree (There is no waiver of the academic requirement and proof of a minimum qualifying degree must be uploaded directly to BCSP)
<b>Experience Requirement</b>	CSP candidates must have four (4) years of professional safety experience, whereas ASP candidates must have one (1) year of professional safety experience.
<b>Qualified Credential Requirement</b>	To apply for the CSP, the candidate must have either ASP / GSP / TSP/ CIH / CMIOSH / CRSP / NEBOSH Diploma. (Not Required for ASP)

# ASP & CSP Certification Process

The application should be completed online at the BCSP portal:  
<https://www.bcsp.org/>

The CSP examination covers 9 domains with 200 multiple choices, four possible answers and only one (1) correct answer. 5.5 hours, closed book, the whole year through Pearson VUE centres worldwide. The ASP examination is the same but covers 7 domains and the only time allowed is 5 hours

5 Years of Certificate Validity

Computer-Based: After the exam is purchased, you will receive an examination authorization notice that is used to schedule the exam through BCSP's examination service provider, Pearson VUE. Examinations are delivered via computer.

Upon submitting their exams, candidates can immediately access their results. After successfully passing the examination, BCSP will grant you the certification you have earned.
